

**+ rail plus 10v**

**+60 to +90v**

T4 must be mounted on the main heatsink as close as possible to the output FETs.  
 T6, T7 and T8 dissipate about 3 watts of heat in total and must be mounted on a heatsink

5 x IRFP450 or similar

**Output**

5 x IRFP450 or similar

**-60 to -90v**
