

LCD MA SERIES

MULTIMEDIA JUST HERE

MA series is designed for enjoying multimedia with the built-in speakers. Its video and audio signals are integrated with a single cable. The design offers **a simple setup and installation** without any possible mistakes. Just connect with a PC, its plug-and-play ability brings you the multimedia experience immediately.

MA series is the cost-effective way to own a media station from PC-end. Without spending any money to purchase external speakers and making the desktop crowded, MA is the most **affordable selection for multimedia pleasure.**

Fast Video Response Time

The panel with faster response time can efficiently reduce residual image effect. For some applications requiring animation, this can enhance fluent video streaming.

High Brightness & Contrast

High brightness is able to enhance images vividly displayed. Higher contrast makes black and white colors more distinct with the gradation. The depth of images can be better with the enhancement.

Built-In Power to Save Space

All components in the power adapter are designed into the chassis. There is no adapter occupying the desktop space.

Integrated Multimedia Speakers

The sounding multimedia experience comes along with the integrated speakers design. Purchase nothing and enjoy now.

Slim Profile Design

The slim profile shows you the advantage to replace CRT monitor and bring a stylish look to match your taste.
