1.7   Desk stand of the player (see figure ③)
You can prop up the DVD player on your table for movie watching. Pull out the stand at the rear of the player.

> **CAUTION** Use of controls or adjustments or performance of procedures other than herein may result in hazardous radiation exposure or other unsafe operation.

2   Introduction

2.1   Your portable DVD player
Your portable DVD player plays digital video discs conforming to the universal DVD Video standard. With it, you will be able to enjoy full-length movies with true cinema picture quality, and stereo or multichannel sound (depending on the disc and on your playback set-up).
The unique features of DVD-Video, such as selection of soundtrack and subtitle languages, and of different camera angles (again depending on the disc), are all included.
What's more, parental lock lets you decide which discs your children will be able to see. You will find your player remarkably easy to use with the On-Screen Display and player display in combination with the remote control.

2.2   Unpacking
First check and identify the contents of your package, as listed below:
• Portable DVD player
• Car adaptor (12V)
• Remote Control (AY5506)
• AC power adaptor (DSA-20R-12 EU or DSA-15P-12 EU)
- Protective pouch
- Mini antenna
- Car headrest mounting kit
- User manual
- AV cables

2.3   Placement
- Place the player on a firm, flat surface.
- Keep away from domestic heating equipment and direct sunlight.
- If the player cannot read CDs/DVDs correctly, try using a commonly available cleaning CD/DVD to clean the lens before taking the player to be repaired. Other cleaning methods may destroy the lens.
- The lens may cloud over when the player is suddenly moved from cold to warm surroundings. It is then not possible to play a CD/DVD. Leave the player in a warm environment until the moisture evaporates.

2.4   Playable disc formats
In addition to DVD-Video disc, you will also be able to play all Video CDs, CDs, CDR, CDRW,DVD±R and DVR±RW.

2.4.1 DVD-Video
Depending on the material on the disc (a movie, video clips, a drama series, etc.) these discs may have one or more Titles, and each Title may have one or more Chapters. To make access easy and convenient, your player lets you move between Titles, and also between Chapters.

2.4.2 Video CD
Depending on the material on the disc (a movie, video clips, a drama series, etc.) these discs may have one or more Tracks, and tracks may have one or more indexes, as indicated on the disc case. To make access easy and convenient, your player lets you move between tracks and between indexes.

2.4.3 Audio CD / MP3 CD / WMA CD
Audio CDs / MP3 CD / WMA CD contain music tracks only. You can play them in the conventional way through a stereo system using the keys on the remote control and/or main unit, or via the TV using the On Screen Display (OSD).

2.4.4 CD with JPEG files
You can also view JPEG still photos on this player.

2.4.5 DivX video discs
DivX is a popular media technology created by DivX, Inc. DivX media files contain highly compressed video with high visual quality that maintains a relatively samll file size. DivX files can also include advanced media features like menus, subtitles, and alternate audio tracks. Many DivX media files are available for download online, and you can create your own using your personal content and easy-to-use tools from DivX.com.

3   General information

Power Sources
This unit operates on a supplied AC adaptor, car adapter, or a rechargeable battery pack.
- Make sure that the input voltage of the AC adaptor is in line with the local voltage. Otherwise, the AC adaptor and unit may be damaged.
- Do not touch the AC adaptor with wet hands to prevent electric shock.
- When connecting with car power (cigarette lighter) adaptor, be sure the input voltage of the adaptor is identical with car voltage.
- Unplug the AC adaptor from the outlet when the unit is not used for long periods of time.
- Hold the plug to disconnect the AC adaptor. Do not pull the power cord.

Please always use supplied AC/DC adaptor.

7

Safety and maintenance
• Do not disassemble the unit for laser rays are dangerous to eyes. Any service should be done by qualified service personnel.
• Unplug the AC adaptor to cut the power if liquid or objects get inside the unit.
• Take care not to drop the unit or subject it to strong shocks, which may cause malfunction.

Hearing Safety
Listen at a moderate volume.
• Using headphones at a high volume can impair your hearing. This product can produce sounds in decibel ranges that may cause hearing loss for a normal person, even for exposure less than a minute. The higher decibel ranges are offered for those that may have already experienced some hearing loss.
• Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So after prolonged listening, what sounds "normal" can actually be loud and harmful to your hearing. To guard against this, set your volume to a safe level before your hearing adapts and leave it there.

To establish a safe volume level:
• Set your volume control at a low setting.
• Slowly increase the sound until you can hear it comfortably and clearly, without distortion.

Listen for reasonable periods of time:
• Prolonged exposure to sound, even at normally "safe" levels, can also cause hearing loss.
• Be sure to use your equipment reasonably and take appropriate breaks.

**Be sure to observe the following guidelines when using your headphones.**
• Listen at reasonable volumes for reasonable periods of time.
• Be careful not to adjust the volume as your hearing adapts.
• Do not turn up the volume so high that you can't hear what's around you.

8

• You should use caution or temporarily discontinue use in potentially hazardous situations.
• Do not use headphones while operating a motorized vehicle, cycling, skateboarding, etc.; it may create a traffic hazard and is illegal in many areas.
• Important (for models with by-packed headphones): Philips guarantees compliance with the maximum sound power of its audio players as determined by relevant regulatory bodies only with the original model of provided headphones. In case this one needs replacement, we recommend that you contact your retailer to order a model identical to that of the original provided by Philips.
• Traffic safety: do not use while driving or cycling as you may cause an accident.
• Do not expose to excessive heat caused by heating equipment or direct sunlight.
• This product is not waterproof: do not allow your player to be submersed in water. Water entering the player may cause major damage.
• Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as these may harm the player.
• Apparatus shall not be exposed to dripping or splashing. Do not place any sources of danger on the appartus (e.g. liquid filled objects,lighted candles)
• Do not touch the lens!

When the player is in use for a long period of time, the surface will be heated. This is normal.

Handling discs
• Do not attach paper or tape to the disc.
• Keep the disc away from direct sunlight or heat sources.
• Store the disc in a disc case after playback.
• To clean, wipe the disc outwards from the center with a soft, lint-free clean cloth.
On handling the LCD screen

The LCD is manufactured using high precision technology. You may, however, see tiny black points that continuously appear on the LCD. This is a normal result of the manufacturing process and does not indicate a malfunction.

Environmental information

We have reduced the packaging to its minimum and made it easy to separate into mono materials: cardboard, PS, PE and PET.
Your set consists of material which can be recycled if disassembled by a specialized company. Please observe the local regulations to dispose of packaging, exhausted batteries and old equipment.

Copyright information

4   Charging the units

4.1   Charge the DVD player

Plug in the AC/DC adaptor
- The **RED** LED indicates that charging is in progress. When the set is not in use, it will take about 4 hours to fully charge it. However, when in use, it will take more than 8 hours to fully charge it.*
- The **RED** LED will turn off when the set is fully charged. When the low battery icon appears on the screen, please charge the player.

* Rechargeable batteries have a limited number of charge cycles and may eventually need to be replaced. Battery life and number of charge cycles vary by use and settings.

> To achieve the longest playtime,
> - Operate the player under normal room temperature (25°C/77°F)
> - Adjust power saving mode to Maximum in the SETUP menu.
> - Use headphone to listen.

4.2   Powering your remote control

1 Open the battery compartment. Remove the protective plastic tab (first time users only).
2 Insert 1 x lithium 3V battery, type CR2025, then close the compartment.

9
CAUTION
• Batteries contain chemical substances, so they should be disposed of properly.
• Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
• Incorrect use of batteries can cause electrolyte leakage and will corrode the compartment or cause the batteries to burst.
• Remove the batteries if the set is not to be used for a long time.
• Perchlorate Material – special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate.

5 Start up

5.1 Setup
1 Press **SETUP**. A list of features is shown.

2 Use ▲ / ▼ to highlight your selection.
3 Use ◄◄ or ►► to enter or leave a sub-menu.
4 Use the navigation keys to highlight your desired setting and press **OK** to confirm.
5 The **SETUP** menu includes:
General

Language	Set On Screen Display (OSD) languages.

10

| PBC settings	Set Playback Control function ON/OFF. This feature is available for Super VCD.
Power save	Set Power Saving mode.
DivX (VOD)	Get the DivX (Video-On-Demand) code.
Parental (DVD)	Set parental options.
Set password	Change password (default: 1369) for DVD and DTTV parental control.
Factory settings	Restore factory settings.
Video	
TV Display	Set screen display aspect ratio.
TV standard	Set video output format to TV system.
Audio	
Dolby	Set Dolby output.
Digital (SPDIF)	Set digital output format.
DTTV	Setup free to air digital TV.

5.2 Playback DVD

1 Press and hold the **POWER ON** button on top of the player to switch on the set.
2 Insert the DVD into the disc slot on the right side of the player.
3 The player will start to play the disc automatically.

IMPORTANT Do not load 8-cm mini DVD disc into the player. The DVD player does not play mini DVD disc.

4 Use navigation keys ◄◄, ►►, ▲, ▼ to select an item from the DVD disc menu, such as play now, select languages and subtitle.
5 The following functions are available during playback:

Pause	Press ►II to pause playback. You can resume playback by pressing ►II again.
Previous/Next	Briefly press ◄◄ or ►► once or several times to select your desired chapters.

Fast backward / Fast forward

Press and hold ◄◄ or ►► to activate Fast backward / forward function. Then, press ◄◄ or ►► once to switch to 2x / 4x / 8x / 16x / 32x speed.

Volume Control

Press **VOL+** or **VOL-** briefly or repeatedly to increase or decrease the sound volume.

Stop   Briefly press ■ on the right side of the player to stop playback.

Subtitle   Change subtitle display. The function is available by pressing either the **SUBTITLE** or **OPTIONS** key.

Language   Change language. The function is available by pressing either the **AUDIO** or **OPTIONS** key.

Angle   Change the viewing angle provided in the DVD disc. The function is available by pressing the **OPTIONS** key.

⬚   To adjust the screen aspect ratio.

A-B Repeat   Set repeat loop playback. Press **A-B** to set the starting point and press **A-B** again to set the ending point. Then, the player will repeat the loop playback. Press **A-B** to cancel the loop playback.

5.3   Playback VCD

1 Press and hold the **POWER ON** button on top of the player to switch on the set.
2 Insert the VCD into the disc slot on the right side of the player.
3 The set will start to play the disc automatically.
4 The following functions are available during playback:

Pause   Press ►II to pause playback. You can resume playback by pressing ►II again.

Previous/Next Briefly press ◄◄ or ►► once or several times to select your desired track.

Fast backward / Fast forward

Press and hold ◄◄ or ►► to activate Fast backward / forward function. Then, press ◄◄ or ►► once to switch to 2x / 4x / 6x / 8x / 16x speed.

Volume Control

Press **VOL+** or **VOL** briefly or repeatedly to increase or decrease the sound volume.

Stop   Briefly press ■ on the right side of the player to stop playback.

Audio   Some VCDs only contain 2 languages for selection. You can change the language using this function. The function is available by pressing either the **AUDIO** or **OPTIONS** key.

⬚   To adjust the screen aspect ratio.

A-B Repeat   Set repeat loop playback. Press **A-B** to set the starting point and press **A-B** again to set the ending point. Then, the player will repeat the loop playback. Press **A-B** to cancel the loop playback.

5.4   Playback Super (S)-VCD

(Super) Video CDs may feature **PBC** (**P**lay **B**ack **C**ontrol). This allows you to play the video CDs interactively, following the menu on the display.
1 Press and hold the **POWER ON** button on top of the player to switch on the set
2 Insert the (S)VCD into the disc slot on the right side of the player. If **PBC** is on, the disc index menu will appear on the screen.
3 Use numeric keypad 0-9 to input your selection or select a play option.
4 Press **RETURN** on the remote control to return to the previous menu.

11

5 To turn Playback Control mode on/off, please go to **SETUP** and select **PBC settings**.
5.5 Playback Music CD

1 Press and hold the **POWER ON** button on top of the player to switch on the set.
2 Insert the DVD into the disc slot on the right side of the player.
3 The set will start to play the disc automatically.
4 The following functions are available during playback:

Pause	Press ▶II to pause playback. You can resume playback by pressing ▶II again.
Previous/Next	Briefly press ⏮ or ⏭ once or several times to select your desired track.
Fast backward / Fast forward	Keep pressing ⏮ or ⏭ will enter the fast search mode.
Volume Control	Press **VOL+** or **VOL** briefly or repeatedly to increase or decrease the sound volume.
Repeat	Press **OPTIONS** key to select Repeat 1 track or Repeat all tracks.
Shuffle	Press **OPTIONS** key to turn shuffle playback on or off.
Stop	Briefly press ■ on the right side of the player to stop playback.

5.6 Playback Music MP3/WMA-CD

1 Press and hold the **POWER ON** button on top of the player to switch on the set.
2 Insert the DVD into the disc slot on the right side of the player.
3 Use navigation keys to select the folder and MP3/WMA file to be played.

SUBTITLE	If the current channel has subtitle available, ▭ will be shown in the program **INFO** screen. Press **Subtitle** to activate the subtitle.
◧	To adjust the screen aspect ratio.

6 Addition Functions

6.1 DISPLAY Menu
When you press **DISPLAY** during playback, the following menu will appear and you can access the corresponding function and information:

| **Brightness**	It allows you to adjust the brightness of the screen
Contrast	It allows you to adjust the contrast of the screen
Color	It allows you to adjust the color of the screen from cool, warm and normal.
Turn off LCD	You can turn off the screen in some situations, such as when connected to TV or playing music discs. This can save the battery power
Battery Status	It shows the battery level

6.2 Connection
6.2.1 Headphone
Connect the headphone to either one of the headphone jacks on the side of the player.

6.2.2 TV
You can connect the player to a TV and enjoy your DVD.
17

English

6.2.3 AV input
You can connect to other devices such as Digital Video Recorder, Digital Camera, etc.

6.2.4 Coaxial
It provides digital audio output signal that you can connect to your home theater equipment to decode the digital audio signal.

6.2.5 TV antenna
You can connect to the home antenna to receive free to air digital TV program.

 TIP This product has a TV tuner designed to be par-ticularly sensible and allows you to have the best TV reception outdoor with the by-packed antenna.
However, when using the product with an indoor col-lective antenna, you might face picture defaults due to strong signal from your indoor collective antenna.
Please use a special adaptor for indoor use in case you encounter reception defaults.

7   Troubleshooting

If it appears that the DVD-Video player is faulty, first consult this checklist. It may be that something has been overlooked.

18
WARNING Under no circumstances should you try to repair the set yourself as this will invalidate the guarantee. If a fault occurs, first check the points listed, before taking the set for repair. If you are unable to solve a problem by following these hints, consult your dealer or service centre.

Symptom	Remedy
No power	• Check if both plugs of the mains cord are properly connected. • Check if there is power at the AC outlet by plugging in another appliance. • Check if car adaptor is connected appropriately.
Distorted picture	• Check the disc for fingerprints and clean with a soft cloth, wiping from centre to edge. • Sometimes a small amount of picture distortion may appear. This is not a malfunction.
Completely distorted picture / no colour in the TV screen	• The NTSC/PAL setting may be in the wrong status. Match your TV's setting with the player's setting.
No sound	• Check audio connections. If using a HiFi amplifier, try another sound source.
Disc can't be played	• Ensure the disc label is upwards. • Clean the disc. • Check if the disc is defective by trying another disc.

Symptom	Remedy
Do not load any 8-cm mini DVD discs into the player.	The DVD player does not play mini DVD discs. If the disc gets stuck inside the player, press ■ ▲ twice to eject the disc. Try the following steps if the disc remains stuck inside the player. **1** Power off and then power on the player. Press ■ ▲ to eject the disc. **2** If this does not work, hold the player with the slot facing down, gently shake the player until the disc comes out.
The player does not respond to the remote control	• Aim the remote control directly at the sensor on the front of the player. Avoid all obstacles that may interfere with the signal path. Inspect or replace the batteries.
Distorted or B/W picture with DVD	• Use only discs formatted according to the TV-set used (PAL/NTSC).
No audio at digital output	• Check the digital connections.
Loss of current TV programs when travelling to another country	**1** Press **SETUP** > **TV/RADIO** > **Country** **2** Select your country **3** Select **Auto search**
Player does not respond to all operating commands during playback	• Operations are not permitted by the disc. • Refer to the instructions in the disc inlay.

Symptom	Remedy
Player feels warm	• When the player is in use for a long period of time, the surface will be heated. This is normal.
Display goes dimmer when AC is unplugged	• The unit is saving power to ensure longer playtime with battery. It is normal. • Adjust the brightness in the **SETUP** menu.
What can be the problem when I have no radio receptions?	• This unit is designed to receive digital radio signals only and it does not support analog radio such as FM or AM.
No/weak signal displayed on the screenayer	• DVB-T signal is too weak, or out of DVB-T signal covering area. • Make sure you are in an area with sufficient coverage. • Receiving DVB-T in a driving car may cause signal problems.
Cannot charge the player	• Check if both plugs of the mains cord are properly connected. • Check if there is power at the AC outlet by plugging in another appliance. • Check if car adaptor is connected appropriately. • Only use 12V car charger (for small car) and do not use 24V car charger (for truck) • The environment temperature should be between 0°C and 25°C. To protect the electronic insides, the player will stop charging when too cold or too hot

This set complies with the radio interference requirements of the European Union.
