**Application**

The 3118SWFB is an extended low-range system designed for a wide variety of speech and music applications, such as clubs, churches, or concert settings.

**Description**

The 3118SWFB is square in shape with a folded design. It is designed to be utilized as a low frequency enhancement to the 3000 series full-range speakers.

**Cabinetry**

The cabinet design uses a 13 ply 3/4 high quality baltic birch plywood with dado joints, and a 16 gauge front perforated grill for long lasting durability. Two Neutrik Speakon connectors and Neutrik parallel 1/4" jacks are installed on all speakers in the 3000 series.

**Covering Options**

The cabinet comes coated in black Duracoat. It is also available in white Duracoat and a natural birch finish. Please refer to price sheet for upgrade pricing.

**Transducers**

The cabinet is loaded with a 18" cast aluminum low frequency driver in a tuned vented enclosure. The cabinet is tuned by means of a vented port set at the optimum frequency.

**Specifications**

<b>Frequency Response:</b>	40hz-300hz
<b>Power Handling:</b>	1000w (cont.)
<b>Sensitivity (1 watt/meter):</b>	106dB
